

# Crossroads4Hope

A NETWORK OF CANCER SUPPORT 

I hope this note finds you safe and well. We have collectively made it through a challenging year and a half! On behalf of our Program Team, I want to extend our deep appreciation for your continued flexibility and understanding: we have been forced to modify our programming multiple times during the pandemic in the interest of your health and wellbeing. We will continue to monitor the situation on the state and local levels, and make any necessary schedule changes. Our primary goal is always to ensure your safety as we provide access to vital services for all people impacted by cancer, when and where they are needed.

This pandemic has brought us closer as a community, and reminds us of the importance of being together at our Bedminster campus, so Crossroads4Hope has made adjustments to the program calendar to support a smooth transition to in-person programming. *To protect your health and wellbeing, masks are to be worn by staff, volunteers, and members at all times onsite regardless of vaccination status.*

**In an effort to provide you with the most accurate program information during this transition, we will not print and distribute a September/October calendar. We ask that you access our online calendar at [crossroads4hope.org/calendar](https://crossroads4hope.org/calendar), and as always, you can register for virtual mind body classes and educational workshops at [crossroads4hope.org/registration](https://crossroads4hope.org/registration).**

While we will try to make changes as soon as we are aware of them, and no later than one week prior to the scheduled program, we ask that you check the calendar regularly. I also want to note that many of our regular programs will remain available via Zoom for the foreseeable future.

I appreciate your patience as we continue to work through the impact of COVID-19. Should you have any questions or concerns, please do not hesitate to reach out to me or any of the members of the Program Team.

*Hoping the final weeks of summer are safe and comfortable for you and your loved ones!*

Sincerely,

Katherine Schaible. MSW, LSW  
Program Director
